SUMMARY

As a passionate second-year Computer Science student, I'm eager to translate my classroom knowledge into real-world impact. With experience in various programming languages and a strong drive to learn and contribute, I'm seeking opportunities to make meaningful contributions to innovative projects.

EDUCATION

| | |
|-------------------------------------|------------------------------|
| SRM University AP | 2022 - 2026 |
| <i>Computer Science Engineering</i> | <i>Current GPA: 7.0/10.0</i> |
| Narayana Junior College | 2019 - 2021 |
| <i>Intermediate</i> | <i>Marks: 919/1000</i> |
| Narayana E-Techno School | 2018 - 2019 |
| <i>10th standard</i> | <i>GPA: 10/10</i> |

COURSEWORK

Courses: Object-Oriented Programming, Data Structures & Algorithms, Discrete Math

SKILLS

Languages: C/C++ Python DSA Web Development

Other Tools: Git/GitHub, VS Code

PROJECTS

- Address HandBook** | C++, VS Code Jun. 2023
- By building our own address notebook using C++, we have the flexibility to customize it according to our specific needs and preferences. we can implement features tailored to our requirements, such as sorting contacts alphabetically, searching for specific contacts, or adding additional fields for information storage.
- Hotel Management** | C++ with DSA, VS Code Aug. 2023
- You can create a comprehensive hotel management project using DSA concepts in C++. This project will not only help you solidify your understanding of DSA but also give you valuable experience.

CERTIFICATION

- Python Certification
- Psychology Of Learning
